No. 3943 /FS&CW., Bhubaneswar, dated the 05/03/2022  
FSCW-PL-PRC-0003-2026

From

**Shri Sanjay Kumar Singh, IAS,  
Principal Secretary to Government**

To

**The Collectors,**

(Balasore/ Bargarh/ Bhadrak/ Balangir/ Boudh/ Cuttack/ Jajpur/  
Jharsuguda/ Kalahandi/ Kandhamal/ Khordha/ Koraput/ Mayurbhanj/  
Nabarangpur/ Nuapada/ Puri/ Rayagada/ Sambalpur/ Subarnapur/  
Sundargarh)

Sub: Farmer Registration for procurement of paddy (Rabi crop) for the  
KMS 2025-26.

Madam/Sir,

I am to say that, procurement of paddy (Rabi Crop) will start from **01.05.2026** in the State and will close on **30.6.2026**. The Odisha State Civil Supply Corporation (OSCSC) Ltd. an agency of the State Government will procure surplus paddy of farmers through PACS/LAMPS/WSHG/Pani Panchayat etc. on payment of Minimum Support Price (MSP) Of Rs.2369/- per quintal of paddy. In addition to MSP, Input Assistance under "Krushak Samrudhi Yojana" of Agriculture and Farmers Empowerment Department will be paid for an amount of Rs. 731/- per quintal. As previous year, this year also procurement operations will be conducted in 20 districts only.

Every farmer, willing to deliver surplus paddy to the Government has to register his name mandatorily at the nearest authorized PACS/ LAMPCS/ WSHG/ Pani Panchayat etc. (Societies, in short). The PACS shall digitize the information submitted by farmers regarding their personal/ land/ bank details **on real time basis** and upload these data on the website of the Department, [www.foododisha.in](http://www.foododisha.in), through the web-based Farmer Registration software application [www.ppas.pdsodisha.gov.in](http://www.ppas.pdsodisha.gov.in) . As a result, the Societies are ready with list of farmers with their marketable surplus before start of procurement operations.

At the time of registration, farmers shall provide their consent for Aadhaar-based e-KYC authentication and for Aadhaar-enabled payment through IRIS authentication. Each individual farmer shall be verified with reference to the Aadhaar number and the biometric information available with UIDAI. The payment towards the cost of paddy shall be credited to the bank account linked with the Aadhaar number through the NPCI platform.

Surplus is calculated @ acreage of irrigated land the farmer has cultivated the Rabi crop multiplied by the yield rate to be fixed by the Government . Yield rate of paddy is fixed every year for Rabi season with approval of the Government. This helps in making advance planning to manage procurement of paddy.

As per the modalities being adopted for the upcoming Rabi procurement, this registration is, however, a simple process for farmers who got registered for the Rabi season of KMS 2024-25. ***Unless such farmers propose to modify the irrigated land details that were registered during Rabi season of KMS 2024-25, it can be done by just giving a declaration in Part 3 of the Registration Form (for renewal) that no change is proposed as regards cultivated land details.***

To enable the process of renewal, a draft database of farmers for Rabi season will be created based on the irrigated land details registered in Rabi season of KMS 2024-25 as well as details of farmers in whose names such lands are registered. This draft list will be generated in respect of each procuring society participating in Rabi procurement to facilitate registration for Rabi (by way of renewal).

Applications for renewal can be submitted by Society Secretary in the portal by clicking one or two button(s). This means that for a vast majority of farmers who have cultivated paddy during Rabi, registration would be a hassle-free experience as it is in the nature of renewal of existing data.

Registration activities will primarily be performed by PACS/ LAMPCS except when specifically authorized by districts in favour of WSHGs/ Pani Panchayats etc.

This year, the farmer registration process for Rabi KMS 2025-26 will start from **10.03.2026** to complete all activities within the broad timelines as per the **Annexure -1**.

## **2. Societies to be registering units:**

Farmers have to register their name mandatorily at the nearest authorized Societies. *Registration activities will be performed by the authorized PACS/ LAMPCS/ WSHG/ Pani Panchayat in their respective jurisdictional areas.* The responsibility of digitising data furnished by farmers and uploading it on real time basis on [www.ppas.pdsodisha.gov.in](http://www.ppas.pdsodisha.gov.in) solely rests with the societies.

A help desk shall be set up in each society to guide applicant farmers to fill in the forms. Societies should update their Society Secretary & DEO details in the P-PAS web application before the start of farmer registration.

### 3. Registration of Farmers:

- a. Farmers who did not register in Rabi season (of KMS 2024-25) have to fill up a new Farmer Registration Form (A sample form is at **Annexure-2**).
- b. Societies will print the new Registration Forms at their level and keep at least 50 forms with them at any point of time. Secretaries of Societies will hand over the blank Registration Forms to farmers who have cultivated paddy in Rabi Season and help them fill up such Forms.
- c. Farmer shall submit their personal details, land and bank details in the prescribed form at their nearest authorized PACS/LAPMCS/WSHG/Pani Panchayat. The society shall digitize the data in real time in presence of the farmer from **10.03.2026 to 24.03.2026 during office hours**.
- d. During registration, farmers must provide consent for Aadhaar-based eKYC authentication and Aadhaar-Based payment. The farmer's identity will be verified through Aadhaar authentication using biometric validation via IRIS, and payment of the cost of paddy will be credited to the Aadhaar-linked bank account through the NPCI platform.
- e. A sharecropper (*Bhagchasi*) is required to obtain a consent letter from the land owner and deposit it along with the Registration Form. A model form of consent letter is annexed at **Annexure-3**. **Sharecropper has to submit a mobile number and a copy of the Aadhaar card of his/her landowner in addition to his/her mobile number and Aadhaar. There shall be no other way for a sharecropper to apply for registration except by way of submission of landowner's consent.**
- f. **Sharecroppers registered in Rabi 24-25 has to register afresh in this Rabi 25-26 season with all relevant documents mentioned above.**
- g. A farmer should be registered in the society where his/ her land is available, irrespective of the actual area of residence in a district.
- h. Submission of fraudulent data and official(s) who facilitates the use of such data will be debarred from the procurement process and suitably dealt with as per law.

### 4. Renewal of farmers for Rabi procurement who already registered in Kharif season of KMS 2025-26 except sharecroppers:

Farmers who got registered in the Rabi season of KMS 2023-24 need only to renew their registration through the Society in respect of irrigated plots only. The following steps are to be followed for the renewal process:-

- a. It would be the responsibility of Societies to make available to farmers the relevant Renewal Forms. Farmers visiting the Society office in connection with Rabi loan can also be handed over the said forms. A sample of the Renewal Form is enclosed at **Annexure-4**
- b. The Society Secretary will download the Renewal Form for the farmer concerned from the **Renewal Form for 2024-25 Rabi Farmers** tab available under Society login. Alternatively, the Society Secretary can download Renewal Forms for all farmers having farmer ID in the Rabi.
- c. The Renewal Form will have four parts. **Part-1** of the Renewal Form has the farmer's personal details sourced from Rabi database. In this part, a farmer has to fill up an important field i.e. expected date of sale of paddy.
- d. **Part-2** of the Renewal Form has the details of the land (irrigated only) cultivated in the Rabi season of KMS 2023-24. It has Khata/plot number and area apart from other details like area actually cultivated. No action is to be taken in this part either by the farmer or by the Society. *The area actually cultivated is an important field and has to be most truthfully declared. It must be revised appropriately as per actual fact. Farmers making inflated claims/Society Secretaries facilitating entry of inflated claims will be appropriately dealt with in case of false declarations.*
- e. If during Rabi season the farmer has taken up cultivation of plots shown in **Part-2** *without any changes*, he has to give a declaration in **Part-3** to that effect. Such lands would pass for renewal with a single click by the Society Secretary.
- f. In **Part-4** a farmer has to provide details of any changes in land particulars shown in **Part-2** in connection with Rabi cultivation. New irrigated plots can also be added **with supporting documents**.

## 5. Processing at Society Level

- a. Checking at Society level: Secretary of the Society is to check the correctness of the Registration Form with copy of RoR, Aadhaar card, Bank Passbook, consent letter of *land owner* (in case of *Bhagchasi*). In case of renewal, details of new plots have to be cross-checked with RoR copy submitted by the farmer.
- b. Digitizing the information of New Registration Forms: After checking the Registration Form along with documents, it will be digitized at the Society office under supervision of the Secretary. Forms will be digitized under Society login provided for Farmer Registration module.
- c. As the land details are linked to Bhulekh application, while entering the details, plot number has to be entered after selecting Tehsil and Village. The online system will fetch relevant details from the Bhulekh database in respect of Kism, RT, total plot area in acre

etc. Other fields i.e. area under cultivation and source of irrigation are to be entered by the Society. **Utmost care must be taken to ensure that uncultivable land types like ଅନାବାଦୀ, ଘରବାଡ଼ି, ପର୍ବତ, ନଦୀ, ଖେଳପଡ଼ିଆ, ରେଳପଥ etc. are not entered in the system. Similarly, lands which are not irrigated must also not be entered in the system.**

- d. Wherever lands are claimed to be irrigated by borewell/ LI Point, the farmer has to quote his electricity consumer number for the same in the specified field on the application/ renewal form. As there have been false claims in the past in respect of irrigated lands, Society has to be very careful in admitting such declarations by farmers.
- e. For new registration, a separate screen will be provided under Society login.
- f. Aadhaar, a Mobile number is mandatory before the digitization of a form for new registration and renewal. During receipt of the Registration Form, the Society Secretary has to validate Aadhaar and Mobile number in the form receipt section of the online farmer registration module.
  - I. After entering the Aadhaar information of a farmer, the Society Secretary has to click the "Validate" button to check the Farmer's Name and Aadhaar number with the UIDAI database.
  - II. Similarly, the Society Secretary has to enter the mobile number mentioned in the registration form after which an OTP will be sent to the registered mobile number from the system. The Society Secretary has to enter the OTP received in the farmer's mobile to validate the correctness of the mobile number mentioned in the registration form submitted by the farmer.
  - III. Once Aadhaar and Mobile number are validated as per the above process, Society can digitize the rest of the information of a farmer in the form provided in the online system.
- g. Digitizing the Renewal Forms: The Renewal Forms would be digitized using farmer code number. The renewal entry screen will show the existing details of a farmer as per information provided in the Rabi, including details of irrigated land only. The information about the expected date of sale of paddy in Part-1 has to be digitized by the Society Secretary. Societies need to digitize **Part 4** of the farmer registration form i.e. revised/new land details after verifying with copies of RoR.
- h. Online populating the new fields: As the Farmer Registration system has been integrated with the 'Bhulekh' database system on real

time basis, fields of 'Kisam', 'Recorded Tenant in RoR', and 'Plot area' will be automatically populated in the entry screen once the 'Plot Number' is keyed in. There will be no scope to change the plot area at the data entry stage. But area actually cultivated out of area of each plot (furnished by the farmer) has to be entered in the system. Those cultivated plots whose areas are less than or equal to Bhulekh area would be auto-validated by the system and pass for computation of marketable surplus.

- i. Acknowledgement Slip: After completing the registration, the Society will provide a printed copy of the farmer registration Acknowledgement Slip to the farmer for future reference. The Society Secretary has to ensure that the Acknowledgement Slip has been issued to the farmer.
- j. Conflicting Claims: There may be cases where the same plot area is claimed to be cultivated by multiple farmers. The online system will veto claims for inclusion of a land particular if the combined cultivated area of all the applicant-farmers in respect of the same plot exceeds the total area of the plot as shown in Bhulekh/ RoR. Such incongruities are to be addressed at the Society level / Supervising officers upon checking the genuineness of the conflicting claims.
- k. User Manual: A user manual will be provided to the Societies for digitization work. Societies must carefully go through the user manual before starting the digitization process.

#### **6. Verification by officials of Revenue/ Agriculture & FE/ Co-operation/ Water Resources Department:**

Verification by Revenue authorities in respect of new plots which are not available in Bhulekh have to be done by following the procedure given below.

- a. *All lands which are not classified as irrigated in revenue records but claimed to be irrigated by borewell/ LI Point shall be verified by officials concerned (DAO/ EE, Lift Irrigation) to determine authenticity of such claims.*
- b. Printing of digitized farmer information: Digitized copy for verification of land details (Revenue Circle/ Mauza wise) wherever necessary, would be generated and printed by Society under their login.
- c. Verification of land details : Verification of land details by **Revenue/ Agriculture/ Lift Irrigation** field functionaries is required under the following circumstances:
  - i. Plot details provided by the farmer are not available in Bhulekh database.

- ii. The total area of a plot claimed to have been cultivated is more than the actual plot area available in Bhulekh.
  - iii. Any plot details that the farmer has added or modified and marked by DRCS/ARCS for field verification.
  - iv. *Plots claimed to have been irrigated by borewell/ LI Point.*
- d. Period of Verification: DRCS/ARCS are required to hand over Verification Reports for lands to Tehsildars concerned so as to complete the verification within one week of receipt of each batch of verification reports. Similarly, list of plots claimed to be irrigated by borewell/ LI Point may be handed over to DAO/ EE, Lift Irrigation who will have them verified by field enquiry through their subordinate officers at Sub-district/ Block level.
  - e. Verification Procedure: The verification procedure by Revenue Inspectors (RIs) from their records would remain the same as was being done earlier. However, all the Tehsildars may be sensitized about the urgency of this important item of work. *Verification of claimed irrigated lands may be done by officials concerned from their records or through field enquiry wherever is necessary.*
  - f. Transmission of Verified Reports: Tehsildars/DAOs/ EE, Lift irrigation shall transmit back the verified reports to DRCS/ARCS within one week of receipt of each batch of verification reports. They should not wait to submit verified reports in one final batch but should keep transmitting them in phases at regular intervals so that DRCS/ARCS are able to update farmer data on a continuous basis. This work has to be completed by **10.04.2025**.
  - g. DRCS will supervise the work in the district where he is stationed. In other districts, where there are ARCS, will supervise the verification work.
  - h. Digitization and field verification must go on simultaneously.

#### **7. Bank Account Validation:**

Post-registration, bank details shall be validated through aadhar-enabled payment system. farmers must ensure that their Aadhar is seeded with their bank account. In case of discrepancies, the should contact the concerned bank for e-KYC updation.

#### **8. Updating by DRCS/ARCS on the basis of verified reports:**

DRCS/ARCS will have the responsibility of updating the changes made in the process of verification by Revenue authorities/DAOs/ EE, Lift Irrigation within the period from **12.03.2026 to 15.04.2026**. The process of updating will facilitate generation of society wise **master farmer list** along with marketable surplus. The output of online Farmer Registration module would serve as input for Paddy Procurement Automation System (P-PAS). As you know, all our Paddy Purchase Centres (PPCs) are covered under P-PAS. Hence, timely

completion of Farmer Registration is critically important for Rabi procurement. Once marketable surplus has been generated against a registered farmer, no particular can be modified at the Society level.

**9. Paddy Crop Area validation through satellite survey:**

In this Rabi season also Government has decided that all plots registered in the "Farmer Registration Module" will be verified through satellite image for all the 20 Rabi paddy procuring districts.

The satellite survey data on the suspected plots will be shared with DRCS/ARCS officials of the districts for further validations at their level through ORSAC land survey mobile app and portal.

Additionally, Digital Crop Survey information under Agri Stack with regards to paddy crop (Rabi) will be obtained from the A & FE Department by the FS & CW department through API integration and utilised as Second Layer of verification.

- 10.** *Claims of all registered farmers as regards the extent of cultivation in the Rabi season shall be verified. Where such claims are found to be false, such farmers may be debarred from paddy procurement operations in the future. Officials facilitating wrongful entries with mala fide intention are also liable for disciplinary/ criminal action.*

**11. Validation of data by DRCS/ARCS in the Farmer Registration Portal:**

All the data entered by the Societies for Rabi, KMS 2025-26 for registration of farmers are to be validated by DRCS/ARCS of the concerned district under their P-PAS login.

**12. Training and Supervision**

- a. Society officials and Supervisory officers shall be trained in the modalities of registration process within timelines prescribed.
- b. Master Trainers' Training :-: Master Trainers from 17 Rabi procuring districts will be imparted training in the last week of February on modalities laid out herein in Video Conferencing mode. Separate letter will go for the purpose, indicating date of training.
- c. Training of Society Secretaries and others: The training of Society Secretaries/DEOs/MIs/ISs/Co-operative Inspectors and related officials will be completed by **08.03.2026** in the districts with the help of Master Trainers. Chief CSO/CSO shall be the nodal officer for the training and he shall be assisted by DRCS/ ARCS/ DSWO/ DCCB in this regard, as done in previous years. Wherever WSHGs/ Pani Panhayats are participating, care must be taken to train their Secretaries. DSWO/ Mission Shakti Co-ordinator shall be involved where WSHGs are proposed to participate.
- d. Monitoring of Registration process: Overall, DRCS/ ARCS shall be responsible for the quality of registration work in their jurisdictional

areas. Senior functionaries like DSWO/ DRCS/ ARCS/ DCCB Secretary/ Chief CSO/CSO/ ACSO/ Inspector of Supplies shall also be assigned with specific Societies for supervising the registration work. DSWO shall involve officials of their Department based in the Subdivision/ Blocks in the process of supervision of registration/ procurement by WSHGs.

Collectors shall take review of supervising officers periodically to monitor the progress made in respect of farmer registration work.

**13. Time Schedule:** The time schedule of different components of the registration process is at **Annexure - 1**. Each and every activity must be completed as per timelines prescribed.

Yours faithfully,  
*A. Singh*
